The Riemann Field (ABF v5.0): Analytic–Beyond Fusion

Serabi   Seraphy

2025

Abstract

ABF is a unifying scaffold connecting weighted NB/BD stability with an information-theoretic balance law. Heuristic, not a proof of RH.

1 Analytic core

Let $a_n = \mu(n)v(n/N)q(n)$; with $K_{mn} = e^{-\frac{1}{2}|\log(m/n)|}$ we have a weighted Hilbert decay leading to NB/BD stability.

2 Beyond layer

Parameters (η, θ) act as entropic balance surrogates.
